TO PLANT THIS FALL

the 7 pictured in color on this page - the one on the front and the following 4 varieties

CECILE WALTER. Long tapering buds of copper-pink open into large, graceful, salmon-pink blooms.

FAIENCE. Soft salmon-pink inside; outside soft rosy yellow. Holds bud compact in center.

MAURICE. Large graceful blossoms of deep pink with an orange tint.

McGREDY'S WONDER. Numerous medium-sized deep apricot blooms.

SENT PREPAID

\$11.90 value for

PEDRALBES

Plant several sets of this collec-tion, for it is the most attractive collection we have seen for years. The plants used to fill it will be of the highest quality.

WYANT ROSES are bound to please

- because they are easy to grow. They are hardy, and well ripened, having been grown in the severe climate of Northern Ohio.
- because they are of the highest quality—two-year, field-grown, budded bushes with strong tops and a mass of fibrous, leathery roots that make transplanting easy and highly successful.
- because they are taken care of with all the skill and care that specialists give who devote all their time and thought to producing better Rose
- and because they are of the highest quality they will produce more satisfaction for you in your garden.

WYANT ROSES ARE QUALITY ROSES

YANT ROSES are of the highest quality and are all two year field grown budded bushes. Having been raised in the severe climate of Northern Ohio by Rose Specialists, they will produce satisfaction in your garden if given a chance.

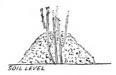

PLANTING INSTRUCTIONS

Keep the roots moist all the time before planting.

Spread out the roots so they do not crowd, and tramp the earth firmly about them.

Don't plant too deep. Plant in good soil where there is sunshine at least half a day.

Mound soil 6 to 10 inches immediately after planting, to keep the moisture in the branches.

Roses banked with earth immediately after planting.
